- + Privately held
- + Certified B Corp

ABOUT 3DEGREES

We consider every aspect of our business an opportunity to do good. When you decide to work with us, we'll help you make positive environmental impact a reality. We have exceptional working relationships with our clients and that leads to exceptional programs, whether it be a:

- + wind farm that increases rural economy tax revenue,
- + carbon reduction plan that lowers the impact of doing business,
- + green building project striving for LEED certification, or
- + utility program that helps customers have more control over the power they use.

We are here to connect people with cleaner energy on a massive scale. And we can't do it without you.

WHY US?

We are an eight-time winner of DOE's Renewable Energy Supplier of the Year and one of the largest Green-e Energy REC providers in the country.

- + 70 percent of NREL's Top Ten Utility Green Power Programs that work with a 3rd party marketer work with us
- + Our clients earn national recognition ranging from EPA Program or Partner of the Year to CRS Best Marketing Campaign
- + Each year we knock on hundreds of thousands of doors on behalf of our clients with a 15 percent conversion rate

All of this means we are well positioned to help you create bold and progressive programs that will captivate customers and energize employees.
