

The disclosures in this document reflect 3Degrees' interpretation of AB-1305's requirements. This document will be updated as new information about the bill's requirements becomes available. All credits sold and marketed by 3Degrees are validated and verified by an independent third-party. Last updated January 10, 2024. For current information about 3Degrees' available carbon credits, please contact us [here](#).

Project Name	Standard	Methodology	Project Type	Project Location	Project Timeline	Project Start Date (MM/DD/YYYY)	Quantity of reductions/removals generated on an annual basis	Avoidance/Removal/Blend (if blend, breakdown of quantity from each)	Details regarding accountability measures if a project does not meet the projected emissions reductions or removal benefits, including if reversal events occur or if future emissions reductions do not materialize.	Pertinent data and calculation methods needed to independently reproduce and verify the number of credits issued	Vintage	The durability for any project where the project's greenhouse gas reductions or greenhouse gas removal enhancements is less than the atmospheric lifetime of carbon dioxide emissions.	Registry ID
Alliance Dairy	Climate Action Reserve	CAR U.S. Livestock Protocol	Agriculture Methane	Florida, United States	11/6/2014 - 11/5/2024	1/1/2013	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021-2022	Permanent	CAR1582
Skyridge Farms Advanced Solid Separation	Verified Carbon Standard	AMS-III_Y,VMR0003	Agriculture Methane	Washington, United States	10/23/2019 - 10/22/2026	10/23/2019	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2019-2022	Permanent	VCS2535
Washington Beef LLC Greenhouse Gas and Solids Reduction Project	Climate Action Reserve	CAR U.S. Organic Waste Digestion Protocol	Agriculture Methane	Washington, United States	1/10/2013 - 1/9/2033	01/10/2013	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021-2023	Permanent	CAR1008
CPA 008 - Charcoal Stoves in Kenya	Gold Standard	AMS-II.G. Energy Efficiency Measures in Thermal Applications of Non-Renewable Biomass	Energy Efficiency	Kenya	4/17/2018 - 4/16/2023	9/12/2016	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021	Permanent	GS11193
Vida Mejor con Ecogases de Alto Rendimiento Improved Cookstoves	Gold Standard	AMS-II.G. Energy Efficiency Measures in Thermal Applications of Non-Renewable Biomass	Energy Efficiency	Honduras	2/1/2017 - 1/31/2022	2/1/2017	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2019	Permanent	GS6111
CPA 009 - Charcoal Stoves in Kenya	Gold Standard	AMS-II.G. Energy Efficiency Measures in Thermal Applications of Non-Renewable Biomass	Energy Efficiency	Kenya	4/17/2018 - 4/16/2023	9/12/2016	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021	Permanent	GS11194
Electric Vehicle Charger Premier Aggregation	Verified Carbon Standard	VM0038	Transport	United States	01/08/2016 - 31/07/2026	8/1/2016	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2016-2020	Permanent	VCS2073
New - North Maine Woods Forestry Project	American Carbon Registry	Improved Forest Management (IFM) on Non-Federal U.S. Forestlands	Forestry - Sustainable Management	Maine, United States	9/4/2020 - 9/3/2040	9/4/2020	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees is marketing only avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Details on accountability measures can be found in the American Carbon Registry Standard, available here . In the event of an unintentional reversal, this project is subject to American Carbon Registry's Buffer Pool Terms and Conditions, available here . All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2020	In accordance with the Protocol, the project is required to maintain the project scenario for a 40 year term. For additional information, please reference the project's registry page.	ACR587
UPM Blandin Native American Hardwoods Conservation and Carbon Sequestration Project	American Carbon Registry	Improved Forest Management (IFM) on Non-Federal U.S. Forestlands	Forestry - Sustainable Management	Minnesota, United States	7/28/2010 - 7/27/2030	1/1/1997	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees is marketing only avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Details on accountability measures can be found in the American Carbon Registry Standard, available here . In the event of an unintentional reversal, this project is subject to American Carbon Registry's Buffer Pool Terms and Conditions, available here . All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2018-2019	In accordance with the Protocol, the project is required to maintain the project scenario for a 40 year term. For additional information, please reference the project's registry page.	ACR212
New - Doe Mountain Forestry Project	American Carbon Registry	"Improved Forest Management Methodology for Quantifying GHG Removals and Emission Reductions through Increased Forest Carbon Sequestration on Non-Federal Forestlands"	Forestry - Sustainable Management	Tennessee, United States	10/10/2019 - 10/09/2037	10/10/2017	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees is marketing only avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Details on accountability measures can be found in the American Carbon Registry Standard, available here . In the event of an unintentional reversal, this project is subject to American Carbon Registry's Buffer Pool Terms and Conditions, available here . All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021	In accordance with the Protocol, the project is required to maintain the project scenario for a 40 year term. For additional information, please reference the project's registry page.	ACR398
New - Boone Forestry Project	American Carbon Registry	Improved Forest Management (IFM) on Non-Federal U.S. Forestlands	Forestry - Sustainable Management	Kentucky, United States	10/19/2019 - 10/18/2039	4/20/2021	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees is marketing only avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Details on accountability measures can be found in the American Carbon Registry Standard, available here . In the event of an unintentional reversal, this project is subject to American Carbon Registry's Buffer Pool Terms and Conditions, available here . All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2019-2021	In accordance with the Protocol, the project is required to maintain the project scenario for a 40 year term. For additional information, please reference the project's registry page.	ACR596
Winston Creek Forest Carbon Project	American Carbon Registry	Improved Forest Management (IFM) on Non-Federal U.S. Forestlands	Forestry - Sustainable Management	Washington, United States	04/17/2017 - 4/16/2037	4/17/2017	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees has only sold avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Details on accountability measures can be found in the American Carbon Registry Standard, available here . In the event of an unintentional reversal, this project is subject to American Carbon Registry's Buffer Pool Terms and Conditions, available here . All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	In accordance with the Protocol, the project is required to maintain the project scenario for a 40 year term. For additional information, please reference the project's registry page.	ACR389
Conversion of SF6 To An Alternative Cover Gas In Magnesium Production In Eaton Rapids, MI and Strathroy, ON	Verified Carbon Standard	AM0065	Fuel Switch	United States and Canada	1/1/2017 - 12/31/2026	1/1/2017	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2022-2023	Permanent	VCS618
Guoluo Grassland Sustainable Management Project	Verified Carbon Standard	VM0026	Grassland Management	China	6/20/2016 - 6/19/2056	6/20/2016	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Removals	Details on accountability measures can be found in the Verified Carbon Standard, available here . In the event of an unintentional reversal, the project is subject to Verra's pooled buffer account, described in Section 2.4 of the Standard. All transactions are ex-post. For additional information, please reference the project's registry page.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Standard.	2018	In accordance with the Standard, project longevity is required for a minimum of 30 years. For additional information, please reference the project's registry page.	VCS2458
HFC Emissions Reduction in Spray Foam by Replacement of HFC-245fa Blowing Agent with Solstice LBA (HFO-1233zd(E))	American Carbon Registry	Transition to Advanced Formulation Blowing Agents in Foam Manufacturing and Use	Hydro fluoro carbons	United States	1/1/2018 - 12/31/2027	1/1/2018	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2018	Permanent	ACR516
Advanced Refrigeration - ARS2021002	American Carbon Registry	Advanced Refrigeration Systems	Industrial Processes	New York, United States	3/1/2021-2/28/2031	03/01/2021	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021	Permanent	ACR830
Larimer County Landfill Gas Project	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Colorado, United States	10/26/2019 - 10/25/2029	10/24/2009	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2022	Permanent	CAR509
Greater Lebanon Refuse Authority Landfill Gas Collection and Combustion Project	Verified Carbon Standard	ACM0001	Landfill Gas	Pennsylvania, United States	4/1/2008 - 3/31/2018	9/30/2007	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021	Permanent	VCS5
Winchester Landfill	Verified Carbon Standard	ACM0001	Landfill Gas	Virginia, United States	9/30/2008 - 9/29/2018	9/30/2008	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021-2022	Permanent	VCS833
Fulton County Mud Road Landfill	Verified Carbon Standard	ACM0001	Landfill Gas	New York, United States	6/4/2010 - 6/3/2020	6/4/2010	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2022	Permanent	VCS834
Morehead Landfill	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Kentucky, United States	12/3/2019 - 12/2/2029	12/3/2009	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2022	Permanent	CAR592
Clinton Landfill Gas Collection and Combustion Project	Verified Carbon Standard	ACM0001	Landfill Gas	Illinois, United States	07/01/2019 - 06/30/2029	01/24/2007	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	The project generates both avoidance and removals. 3Degrees is marketing only avoidance credits from this project. For a breakdown of the quantity beyond what 3Degrees is marketing, please reference the project's registry page.	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	VCS318
Flathead Electric Cooperative Landfill Gas to Energy Project	Verified Carbon Standard	AMS-III.G.	Landfill Gas	Montana, United States	6/26/2019 - 6/25/2029	6/29/2009	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	VCS640
Hancock County Landfill Gas Collection Project	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Ohio, United States	6/29/2020 - 6/28/2030	6/29/2010	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	CAR635
South Kent Landfill Gas to Energy Project	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Michigan, United States	7/10/2018 - 7/9/2028	7/10/2008	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	CAR443
Hilltop Sand and Gravel Landfill GHG Project	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Virginia, United States	11/2/2020 - 11/1/2030	11/2/2010	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	CAR829
Kentucky Blue Ridge Landfill	Climate Action Reserve	CAR U.S. Landfill Project Protocol	Landfill Gas	Kentucky, United States	10/4/2015 - 10/3/2025	10/4/2005	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	CAR522
15 MW Nam Hinboun Downstream Hydropower Project	Verified Carbon Standard	AMS-I.D.	Small, Low - Impact Hydro	Laos	2/1/2021 - 1/31/2028	2/1/2021	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2021-2022	Permanent	VCS3662
Nam Long Hydropower Project	Gold Standard	AMS-I.D.	Small, Low - Impact Hydro	Laos	10/1/2021 - 9/30/2026	07/07/2008	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	GS2707
Jingyuan County 100MW Solar Power Generation Project	Verified Carbon Standard	ACM0002	Solar	China	12/29/2014 - 12/28/2024	12/26/2014	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2020	Permanent	VCS1406
Solar Photovoltaic Project by Giriraj Renewables Private Limited	Verified Carbon Standard	ACM0002	Solar	India	03/02/2018 - 03/01/2028	3/2/2018	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	VCS1786
Rivian EV Charging Network Project	Verified Carbon Standard	VM0038	Transport	United States	11/4/2021 - 11/3/2028	11/04/2021	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	VCS3735
Guyuan Wuhuangping 49.5 MW Wind Power Project	Verified Carbon Standard	ACM0002	Wind	China	11/28/2009 - 11/27/2019	5/25/2010	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2016	Permanent	VCS736
Hebei Chengde Weichang Yudaokou Pasture 150MW Wind Farm Project	Verified Carbon Standard	ACM0002	Wind	China	11/27/2010 - 11/26/2020	4/22/2012	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2019	Permanent	VCS892
Hebei Guyuan County Dongxinying 199.5 MW Wind Power Project	Verified Carbon Standard	ACM0002	Wind	China	5/25/2010 - 5/24/2020	5/25/2010	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	2018-2020	Permanent	VCS903
Bundled Wind Power Project by Giriraj Enterprises	Verified Carbon Standard	ACM0002	Wind	India	03/31/2015 - 03/30/2025	3/31/2015	Please reference the project's registry page for historical issuances and estimates of future reductions/removals generated.	Avoidance	Emissions reductions from this project are permanent and are not subject to reversal risk. All transactions are ex-post.	Please reference the project's registry page for verification reports. All emission reductions and/or removals are calculated in accordance with the Protocol.	Marketing project, no saleable vintage in inventory.	Permanent	VCS1669
